

## Now is the time

I couldn't sleep  
Dark thoughts shot through my head  
Couldn't find any peace  
All my hopes seem almost dead

Take a look around  
what a mess I am living in  
Have I used up everything?  
I don't wanna believe  
that time's running out  
Some work remains to be done, now...

I don't understand  
Why all the things in life go wrong  
Here I stand with empty hands  
Although I've given everything

Take a look around  
what a mess I am living in  
Have I used up everything?  
I don't wanna believe  
that time's running out  
Some work remains to be done, now...

I think now is the time, now is the time  
I think now is the time, now is the time

I close my eyes, and I make a wish  
I feel it in my heart. I feel it in my soul.  
I want to go forward there is no turning back,  
I want to see my dreams anew, afresh and alive.

Now is the, now is the, now is the...  
I think now is the time, now is the time  
I think now is the time, now is the time
